THE FOLLOWING RULES SUPERSEDE THE OFFICIAL DEMOLITION DERBY RULES ON THE LAST PAGE FOR GAS TANKS, BATTERIES & STATION WAGONS:

You will be permitted to change the location of the fuel tank and battery, providing you accomplish this in a manner approved by a Motor Sport Race Sanctioning Body's Rules.

The fuel tank recommendation by JM Productions is a STOCK gas tank in STOCK position, NASCAR approved FUEL CELL or a U.S. COAST GUARD MARINE fuel tank, installed behind a firewall.

- Demolition Derby ONLY - Drivers may use an approved "Inside Tank". (See diagram)
- Battery will also be permitted inside the car *provided* it is secured and completely covered.
- STATION WAGONS will also be permitted within the weight limits of 2,600 - 4,800lbs.

2011 LEBANON LIONS COUNTY FAIR
INSIDE FUEL TANK OPTION for the DEMOLITION DERBY!**

JMP has recommended stock fuel tanks for over 40 years, based on our experience of overall safety.

(All NASCAR Divisions Have Outside Fuel Tanks)

An alternate fuel tank **MAY** be installed with the following provisions adhered to:

- a) The stock fuel tank **must** be removed from the car if you are installing an inside tank.
- b) The car must use an **approved** type of portable fuel tank. A fuel tank used with outboard marine engines is acceptable.
- c) **No** stock tanks will be permitted inside the car. If you have a plastic marine tank, it must be placed in a solid steel case!
- d) The tank must be mounted on a solid, flat surface located directly above the rear axle.
- e) The tank must be securely mounted to the car body by at least two steel straps. **NO** rubber tie-downs permitted!
- f) The mounted fuel outlet fitting on the marine tank cannot be changed.
- g) The tank will not be allowed if fuel runs out when the outlet line is disconnected or when the tank is inverted.
- h) If any gas is spilled in your car, it will not be permitted to run.
- i) The fuel line must run under the floor pan to the fuel pump by using your original gas line or a new rubber hose.
- j) Fuel pump must shut off with ignition switch.
- k) No more than 3 gallons of gas is permitted.
- l) The rear seat cushion support brackets and all areas designated with an "X" in diagram 2 (below) must be covered with sheet metal or aluminum (firewall) to minimize fumes from entering the driver's compartment from the trunk area.
- m) Station wagons must run with a stock tank in the stock position.

JM Productions does not imply or guarantee safety. We believe that when a gas tank leaks fuel or fumes, it is safer for them to leak on the track rather than in the car.
